On Republic Day

Being a citizen of India, we all have some moral responsibilities and duties mentioned in the constitution. We must respect the National Flag and National Anthem, obey the laws of our country, protect the power, unity and integrity of the country, safeguard public property, pay our taxes with honesty promptly etc. Abiding by the constitution and consciously carrying out the civic duties is the key to India's unity. Hence the fundamental duties must be propagated by all citizens, with a sense of patriotism and conscience.

These duties are the moral obligations of all Indian citizens in order to uphold the integrity of the country. The fundamental duties can however be made enforceable by parliamentary law and violation of the fundamental duties can be punishable. Alongside following the existing duties, it is also the responsibility of every citizen to be aware of the status quo and to carry out additional duties voluntarily. As rightly stated by PM Shri Narendra Modi, our Constitution is the Dignity of every India and paves ways of Unity of India. Hence to preserve our rights, let's consciously perform our duties to the nation. And also we should cherish the achievements we are enjoying especially by celebrating national festivals by ensuring our presence at the time of flag hoisting in our institution.
